"GETTING TO KNOW YOU" - A STUDY OF CHILDREN IN FAR AWAY LANDS

1. To give the child a view of the world as his home and to instill in him a lively interest in boys and girls outside his own environment.
2. To help the child realize that even though there are differences in race, color and customs, the children of the world are live boys and girls who have the same needs and wants that he has.
3. To help the child gain an appreciation for and an understanding of the children of other lands.
4. To help the child learn how the physical features of the world affect the lives of the children: homes, dress, food, play, work and customs.
5. To help the child to work, play and live effectively.
6. To help the child to gain independence through the fulfillment of daily tasks.
7. To establish good habits of listening, speaking and choosing wisely, completing tasks and sharing responsibilities.
8. To develop the child's ability to learn through experimentation, resource people and printed matter.
9. To develop muscular coordination through work and play.
10. To enrich the subject with music, literature, films and excursions.
11. To establish proper health habits and good manners.
12. To develop an appreciation for the wonders of the world that God has created.
13. To develop in the child a sense of at-home-ness in and reverence for the Church and of God's need for him in the world.
